

Press Release Grad Conn Interconnect – February 2009

Space and cost saving 0.5mm (0.019") Ultra Low Profile connectors

Ultra low profile, 0.5mm pitch board to board connectors for mezzanine PCB connections are perfect for applications where space is limited.

You have complete control over the stacking heights which start at 3.00mm (0.118") and increments by 0.5mm (0.1972") up to a maximum stack height of 6.00mm (0.236").

The 0.5mm range is an economical choice, selling at around \$1.00 (USD) for a mated 26 way pair (male and female).

Available in 10 to 120 contacts and suitable for 0.5a per circuit with an operating temperature range of -20°C to +105°C, the BB02-PE and PG are fully RoHS compliant and suitable for high temperature reflow solder process.

Rated for 500 mating cycles, the connectors are designed with a strong and reliable dual contact.

Contact us now at sales@gradconn.com for pricing and samples for approval.

Product drawings, full specification and packaging drawings are available at: <http://www.gradconn.com/0-5mm/0-5mm-results.asp?Pitch=0.5mm>

About Grad Conn:

Grad Conn Ltd. is a Taiwanese company manufacturing cost effective Board to Board Connectors, SIM Connectors and RF Coaxial Cable Assemblies.

We are committed to servicing you from design through to volume production worldwide. Trust Grad Conn to work in partnership with your design and manufacturing teams every step of your process, with design/application advice, free samples and help with pre-production requirements.

Our factories are located in China and Taiwan and certified to ISO9001:2000. All parts are fully RoHS compliant (including Deca BDE compliance).

Grad Conn's footprint in Europe and North America includes offices in each continent with the added support of a representative network in the USA and distribution network in Europe. Our aim is to offer a local contact in your time zone wherever you are in the world. We ship worldwide from Taiwan and offer door to door delivery in the USA.

Our website www.gradconn.com includes details of all products with PDF drawings. Lead time and MOQ information can be found at: <http://www.gradconn.com/about/about.asp>

Contact us today with your connector and cable requirements.
